

Lawrence Curbside Organics Update!

Great news, Central Jersey Waste has agreed to start the Lawrence Organic Waste Collection Program in March!

As promised, the first 300 participants were eligible for a discount because of the Sustainable Jersey Grant. **We have attached a copy of the Central Jersey Waste enrollment form that must be completed and returned to the Lawrence Township Public Works Department by February 16, 2015.** We will only tabulate the final number of residents and send all the forms directly to Central Jersey Waste. Central Jersey Waste will bill you directly. The discount will be applied to your invoice for the first twelve months of service.

If you plan to share this service with your neighbor(s), only one party must fill out the enrollment form. That party will be the responsible individual with respect to the billing. Work out any pay share arrangements "behind the scenes".

Remember, it is important that you return your form by **February 16, 2015**, to jbrokofsky@lawrencetwp.com or Lawrence DPW, 240 Bakers Basin Road, Lawrence, NJ 08648.

The Curbside Organic Committee is planning to hold a series of instructional seminars to help residents answer questions regarding the program in February. Times, dates, and locations will be available soon! We will be sending out additional emails but you can also check the Township Website for updated information.

Thanks again for your patience and commitment to recycling in Lawrence Township!
