CREATE TO DONATE

HEART PILLOWS FOR BREAST CANCER

Sewing pillows for cancer patients is a wonderful way to provide comfort and protection. The two most common and highly requested pillows are chemo port seatbelt pillows (which protect sensitive chest ports) and heart-shaped mastectomy pillows (which provide underarm and chest support after breast surgery). We at the Lawrence Senior Center are looking for volunteers to help CREATE or stuff these projects so we can DONATE them to hospitals or people in need.

CHEMO PORT/SURGICAL PILLOW PROTECTOR

MASTECTOMY Comfort Pillow

If you are interested in helping, we will be meeting Wednesdays at 2:00 PM in our Art room.
